# NURSERY FOR SALE

HAVING purchased additional acreage adjacent to our New Home Nursery, we would like to consolidate our efforts close to home. We, therefore, offer **FOR SALE** our 140 acre Perry Nursery, located at the intersection of Webb Road and Route 84 (a paved highway) in Perry, Ohio, 1/3 mile from business center and N. Y. C. and N. K. P. depots.

This is a beautiful piece of tile drained land containing soils varying from gravel loam to heavy clay loam. A fair part is open ground fit for new plantings and the balance planted with much valuable nursery stock, mainly shade trees. With shade trees as scarce and as high priced as they are, the price for which we are offering this established nursery is a **REAL BARGAIN.**

The entire nursery is well laid out with solid roads and contains much valuable main road frontage. It is improved with a modern six room house in good repair and a large barn, as well as other outbuildings.

If you are interested, get in touch with us at once for further details.
